# Show Me

# Agriculture

Welcome to Show Me Agriculture!

Welcome to the first issue of **Show Me Agriculture**! Did you know that Agriculture is one of Missouri's most important industries? Did you know that you have agriculture all around you? Are you wearing cotton jeans, a wool sweater, or maybe a leather belt? It is difficult to get dressed without using agricultural products. Then of course, when you go to the lunch room each day, agriculture is everywhere. All of our food, whether it is bread, milk, burgers, fruit, or corn chips, comes from agriculture. Not only did the product originate on a farm, it was prepared (processed) in a factory that is also part of agriculture.

Let's think about agriculture in your life. Outline a typical day in your life and list how agriculture was involved. Here are some examples,

Slept until 7 a.m.

Had ice cream after school

slept on cotton sheets

ice cream from milk, sugar, chocolate
